PROFESSIONAL SUMMARY

Passionate full-stack developer with a specialization in MERN stack. Keen interest in solving complex problems and building interactive web pages. Looking forward to showcasing my skills in a challenging company to design and develop user-friendly websites.

PROJECTS

Udemy Clone |

A web application to buy new courses to update skills.

Features

- Social Sign-in/Sign-up and user authentication
- Buy courses
- Add courses to the cart
- Complete payment using debit cards

Tech Stack: HTML | CSS | JavaScript | Node | MongoDB

Areas of responsibility:

- Built authentication and integrated it with the frontend
- Laid out the database schema and built the REST API for the same
- Developed the Home and cart pages
- Developed a profile page for users

A collaborative project built by a team of 4 executed in 4 days.

Food Recipe |

A mini web application to search for recipes.

Features

- Search functionality
- Displaying the ingredients and the recipe for the selected dish
- See the random recipe of the day

Tech Stack: HTML | CSS | Javascript

Areas of responsibility:

- Fetches the sample food API and used it with the DOM to show the ingredients
- Applied the debouncing functionality to the search box
- Developed the landing page and random recipe page

A solo project built and executed in 2 days.
